

## Skyline Shackles (general)

**When skylines are attached with a shackle using a knockout pin, the pin must one size larger than the skyline and secured with a molly, latchpin, or cotter key. 437-007-0635(7)**

**A flush pin, straight-sided shackle must be used to connect the eyes of lines if:**

- (a) The shackle will be crossed by a sheave, or**
- (b) A sheave will be crossed by the shackle.**
